

The G202P3 Treaty Agreement*

The G202P3 Treaty Agreement is a protective discourse offered by The Council of Worlds/Guardian Alliance/Interdimensional Association of Free Worlds (I.A.F.W.) in this Galactic Region to the current planetary populations under threats of attack and dwelling in the time space continuum referred to as HU-1 (Harmonic Universe) Urth/Earth Density – 3 frequency bands (7-9).

The Council of Worlds and other such sounding entities

The Council of Worlds is a loosely derived collective of well intentioned, harmless and helpful beings (Extra Biological Entities as well as light beings and beings that are even beyond that operating as a consciousness or gestalt of Social Memory Complex) seeking to assure the inhabitants of juvenile and infant worlds of protection from the incursions of more sophisticated, predatory and technologically developed species who seek to pervert, derail, interfere or totally dominate and adversely affect the social, spiritual and moral evolution of indigenously seeded lifeforms (Inhabitants) in their “Gardens of Eden”.

This treaty can only be offered OVERTLY if sufficient entities have made a meaningful call or invocation to have “something” intervene to help them. This is commonly referred to by the Council as “**The Call**”.

The Call operates on the *Universal Law of The Square*. The percentage on the planet making The Call much reach a threshold before intervention can take place on a grand scale, but on a smaller personalised scale help is ever at hand and available.

The Law of the Square functions to place positive skew on the numbers calling.

An example: If just 10 people make a call for intervention the number equates to approximately 1,012 calls. 10 squared with an additional group conscious generated effect. In this world therefore 1 and 1 are not 2.

The Call accelerates and ensures that at certain points in time which have been designated as “tipping points or Alpha or Omega points” [i.e. “when catalyst is applied to help undecided souls make a choice between “Service to Self or Service to Other” polarisation for continued development], that the rogue and more aggressive ET factions [who perceive humankind as a virus species to be prevented from escaping the laboratory of Earth], within the sector are prevented from total domination and achieving covert control of planetary populations before this polarisation can be achieved.

The Law allows a faster and more assured response time than conventionally imagined.

Mechanics

World’s come into being and lapse from the creative framework naturally and continually, however the Grand Scheme calls for continuous growth, evolution and development of the Universe and the Omni-versal Plan for the “Sublimation of the Divine FACE”. This face is what many of you would refer to the face of Good or God.

In essence it is each and every one of you, us and them...

Ultimately the curtain will fall on the stage, the actors will bow, the audience applaud, and the players all exit Stage left to become One with Oneness.

However, the Oneness is in eternity and not in time and time can at times seem endless, unfair, immovable and unending.

In this Greater Scheme of things the plans are made, timetables set and planets, peoples and all life either evolves or devolves – that is everything’s choice and is inviolate – being the First Law of the Universe enunciated as, *“Allow each soul to walk its own path!”*

As there is no standing still on a tight rope, to this end, as mentioned previously CATALYST at times needs to be applied to bring parties to a conclusion, and force the evolutionary process somewhat.

You are now at such a “Tipping Point” and being covertly manipulated by malevolent ET and EBE forces who do mean you harm, but are part of The Plan.

Their Plan

To steal your planet to which you owe everything, from under your very feet without you ever suspecting it to be so by using guile, trickery, deception, diversion, AI and sophisticated time space travel and manipulation of your reality fields which are nothing but frequency fields, to effect this end.

To steal your Soul energy and disconnect you from Source and from your Soul Matrix in effect cutting you off from the planetary grid and its morphogenetic field, preventing you from attaining any further form of spiritual development or evolution: in short creating a phantom virtual reality for you in which your “mind, emotions and social scene” has been holographically uploaded into a Cloud of VR in which you “calmly reside”.

Speciality is their Key – Specialness Separates – Specialness Divides

How it works:

“They” visit

“They” approach

“They” lure

“They” promise

“They” raise up

“They” reveal

“They” coerce

“They” create an Elite or Chosen People

“They” use the Elites to deliver the populations up into their hands and provide whatever is required to get the “job done!”

“They” use the Elites to control their own and always The Game is played out the same – so, if you’ve seen it once you’ve seen it forever!

Always the same maybe, but this does not prevent the same pattern. It is analogous to the young man who becomes middle aged and then old who continuously uses the magic trick he learned when he was in his teens to deceive the small child at the Christmas or birthday party – the Buddhist would call it “Deceiving a child with an empty fist” or with the “coin behind the ear” – it just never fails to amuse or work!

The Solution

If it were not for the continuous intervention of Higher Dimensional Beings (H.D.B.) and the Gestalt energy beings from HU5 and above your species upon this planet would have disappeared millennia ago. You have lots to be grateful for – we do not ask for adoration as this is misplaced between equals, but a modicum of gratitude is well deserved by your brothers and sisters of the Higher Dimensions.

These beings are here to help you now – the time for prevarication is finished.

You need to become adults fast and leave your childish play pen and toys behind.

It is time for you to wake up and save yourselves from what would appear inevitability.

The Guardian Alliance will help anyone who asks but we will not help those who will not help themselves – why would we? How could we without violating the First Universal Law – ***“Allow each soul to walk its own path!”***

The Call

To this end The Call is requested as a small indication genuinely made from the heart of the recognition that you cannot help yourself and that The Atonement Principle and hence Great Spirit can intervene, try to assist and help you.

The Divine Plan continues

The Outcome is Inevitable

The Result assured

The only thing missing is you.

The Purpose of the Call is to continually remind the Players in the Game that no matter how fool-proof they think their plans to be we can always assure them that they are most certainly NOT God Proof!

We leave you now in the Love and Light of the One Infinite Creator
